Additional Components

Most components like service rails, glass racks, and coat or purse hooks are stocked for quick shipment. For non-stock options, expect 1–3 weeks for powder coated finishes and 4–6 weeks for electroplated finishes.

Custom Fabrication

Custom fabrication timelines vary. Lead times above reflect standard options, but additional services, such as radius work, or drawing services will extend production. Contact your account executive for project-specific timing.

** These lead times are estimated and can vary. Please contact your account executive for the most accurate information about lead times.*

† Only stocked in certain styles. Contact your account executive for more information.
